Almost ready for broadcasting

We're happy to say that we have almost finished the production of the following programs which will be broadcast through satellite TV and used on our social media platforms. The process of production can be quite challenging sometimes. We'll be excited when they will be ready for broadcasting!

Baby on Board!

Two women are chatting together in a taxi about pregnancy. *Baby on Board!* is a series for pregnant women to refute all sorts of superstitious beliefs and practices surrounding pregnancy and care for the new-born in the Arab World, and to give advice on good and healthy practice instead. Soon to be finished!

Maaki: (God is) with you

Maaki is a series of testimonial programs by Arab women who became refugees because of the war situations in Syria and Iraq, and other places in the Middle East who tell about God's faithfulness in their situations. The series is now in quality control. We expect it to be finished soon.

Help! My child claims to be atheist

In recent years, the claim of becoming atheists has grown throughout the Arab World, from both Christians and Muslims. This series' goal is to help create an environment of openness, especially between generations, as the younger generation feels unheard by their parents and pastors, when having deep questions and doubts about their own religion.

You and I - the light of the world?!

Jesus says that he is the Light of the world, and continues to declare that his followers are the light of the world. We want to challenge Christians in the Arab World to bring light through practical witness and to invite people who don't know Jesus yet to discover the Light.

At the moment we are producing short video clips featuring principles and deeds of Jesus, reminding us what it entails to be the light of the world. How can we ease people's burdens? How can we feed the hungry and care for the stranger? **We are grateful for the US\$13.000 we have received, but we still need \$7.000 in order to complete the project.** [Can you help us?](#)

Studying online – radical changes!

Through one of our Facebook pages, and the connected course on themes from the life of Christ, **23 persons confessed to have started following Jesus**, in the second half of 2019.

- Mahmoud said: "I am a Sunni-Muslim and I want to become a Christian."

- Hamza finished the discipleship lessons and let us know that he's been a believer for a year.
- Abdelrahman followed the life of Christ course and said that a radical change occurred with him because of the course.
- Melad said that the course reminded him of many things that he'd forgotten and helped him get closer to God.

Empowering Yemeni women

In order to encourage Yemeni women to assert their own identity and abilities and to play a full part in the reconstruction of their country, we have produced a 26 part series which addresses subjects that particularly trouble Yemeni women. This is a co-production with Light for Yemen. The clips have been broadcast by SAT-7 and Miracle channel and are also used on several Facebook pages. Until now we have already had 350 private messages through the videos and 9200 likes on our posts. Watch the trailer [here](#).

One of the video clips is about how some husbands control and judge the friendships their wives have. The topic got people talking on our Facebook page; here are some of the comments:

"This husband has no confidence in himself, neither in those around him. Therefore, he rejects the intelligence and strength of his wife because of his own fears."

"The husband is responsible for his wife. It is not only his right to watch her friends, but it is a duty. Every shepherd is responsible for his flock."
